### **DETAILED ACTION**

1. The after-final amendment filed on March 2, 2011 has been entered. Because the amendments prima facie place the application in condition for allowance, the withdrawn claims have been considered for rejoinder. The appropriate withdrawn claims have been rejoined as described below and new grounds of objection/rejection have been necessitated. Accordingly, the finality of the Office action mailed February 4, 2011 has been **withdrawn** to address these issues.

#### ***Election/Restrictions***

2. This application is substantially in condition for allowance except for the presence of claims 13 and 27 which stand as withdrawn because they are directed to different inventions that were non-elected without traverse. Accordingly, these claims should be cancelled in response to this Office action.

#### ***Rejoinder***

3. Withdrawn dependent claims 4-9, 11-23 and 26 further define the hand-held power tool of claim 1 and thus are considered to be prima facie in condition for allowance based on the allowability of claim 1. Thus, these claims have been rejoined.

***Drawings***

4. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the actuator rod guide as set forth in claim 8, which guide is not described using a reference numeral and does not appear to be shown, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

5. Claims 7-9, 22 and 23 are objected to because claim 7 depends from canceled claim 3. Appropriate correction is required.

***Claim Rejections - 35 USC § 112, 2<sup>nd</sup> paragraph***

6. Claims 7-9, 16, 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, line 2, the recitation “at least partially integrally joined” is vague and indefinite as to what structure is being set forth.

In claim 8, line 3, the recitation “an actuator rod guide” is vague and indefinite as to what disclosed structure it refers.

In claim 16, the recitation “wherein said housing forms said barrel grip” is vague and indefinite with respect to claim 1 and how the claimed invention thereof is being further defined.

***Allowable Subject Matter***

7. Claims 1, 2, 4-6, 10-12, 14, 15, 17-21 and 24-26 are allowable over the prior art of record.

8. Claims 7-9, 16, 22 and 23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

9. Applicant's amendment filed on March 2, 2011 placing the application in condition for allowance necessitated rejoinder which in turn necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
